Issue No. 42

The Chairman Speaks ...

We observe Republic Day in India on 26th January, as the constitution of India came into being on this day in 1950. One of the tenets of the constitution is "Right to

Education".

Nelson Mandela has rightly said, "Education is the most powerful weapon which you can use to change the world".

The destiny of our nation is in the hands of our young techno savvy generation, who reside in the age to explore knowledge and technology. Our purpose in education is not only to impart knowledge and foster skills in students, but also to have overall development and to inculcate in them the core values like responsibility, integrity, discipline and empathy.

"Learning another language is not only learning different words for the same things, but another way to think about things..."

This year we have launched the "Chandra-Prakash Language Lab" which is indeed unique and one of the largest School language lab in our country, equipped with 61 computers, with Sanako Software from Finland. It will definitely help students to acquire the language skills effectively and effortlessly.

At School, our main focus is to develop student's potential, thus our students bring laurels by achieving success in the Inter School Competitions of drawing, music, swimming etc. Our staff development is a key factor to this goal and we are providing continuous teacher training in order to deliver high-standard education in our classrooms.

With immense pleasure I would like to share that Mrs. Vimala Pardeshi has received "Shikshak Gaurav Puraskar 2018-19" by the Pune Municipal Corporation at the hands of the Mayor Mukta Tilak. Our School takes pride in maintaining high standards of learning and offering quality education to students.

It is my sincere hope that all our stakeholders continue to embrace our mission and vision for a better and brighter future for the generations to come.

Wish you all a happy Republic Day.

Subhash Parmar
Chairman

Inauguration of "Chandra-Prakash Language Lab"

Be the change you want to see in the world and feel proud to be an Indian.

From the Principal's Desk...

'To learn a language is to have one more window from which to look at the world'.

With this motto, Acharya Shree Vijay Vallabh School inaugurated the 'Chandra Prakash Language Lab' on the auspicious occasion of Foundation Day. No one would disagree with the claim that language and thought interact in many ways. Language has its own influence on the thought and action of its speaker.

In today's world of globalization language plays a medium to connect people. It is hence important to have a command on the speaking skills. This is the aim behind starting the lab. In this New Year, our teachers resolve to bring about a positive change in our students by enhancing their LSRW Skills i.e. listening, speaking, reading, and writing. It is now our goal to accept and meet the challenges of the school.

In the process of developing ourselves, let us not forget our duty towards our nation. Let us pledge for a green and clean India.

Wishing you all a Prosperous New Year and Happy Republic Day!

Madhavi Desai
Principal, Secondary School

Chandra-Prakash Language Lab

Student's View

It was the first time we visited Chandra-Prakash Language Lab. The Lab was well equipped with the latest electronic equipment. Everyone had been given their own computer on which they could enrich their knowledge of Languages with the help of Sanako software. We were given instructions to get habitual using tact.

We had never experienced such a different way of learning Languages. Such a way will help the students to not only develop languages but also to be Language champs and achieve mastery in it.

Students will start thinking out of the box. We all will remember this unique way of studying in future. It is fun to go there every week. We are lucky that we have got an opportunity to focus on our language skills. Everyone should go there and enjoy the fun with language.

(Std. VIII)

From the Principal's Desk...

Being a Principal, it's a proud moment for me to present the third edition of the ASVVS Newsletter of A.Y 2018-2019. Our newsletter informs, inspires, motivates and entertains a diverse readership by presenting an intimate, timely and honest portrait of our school, its programmes, resources and aims. It will also serve as a portal where parents are updated about the exciting activities the school undertakes for their children.

It was Margaret Mead who said "Children must be taught how to think, not what to think". Thus students are given a scope to present their artistic talents through the art and craft exhibition. Our Annual Magazine "Vijay path" helps them to explore their knowledge in writing skills. We have arranged the workshop on "Good touch and bad touch" where students are taught to be aware of the worldly disasters that might occur in their life, they are taught how to be careful while sustaining in the present worldly situations.

Each issue of our School's Newsletter is a milestone that marks our growth, unfolds our imagination and gives life to our thoughts and aspiration. We conduct Sports Day, Annual Social Gathering, Art and Craft Exhibition, workshops for students. Now Students are able to learn various Language skills using the Chandra Prakash Language Lab.

You can view a glimpse of all these activities through this Newsletter.

Wish you all Happy Republic Day.

Snehal Khatavkar
Principal, Primary School

From the Principal's Desk...

At the very outset, I wish each one of you a HAPPY REPUBLIC DAY. When our nation celebrates Republic day, let us pledge to take part in nation building in our unique ways. Even if each of us decides to work with sincerity, then we shall make great contributions towards the nation. We at Acharya Shree Vijay Vallabh Pre Primary School help our children to know what is correct and what is incorrect for them and the nation at large. Moral values in life hold great importance from the point of personal, social and spiritual development. Values, morals and ethics are inextricably tied together. Values are thus the motive power behind purposeful action. Ethics and character are closely related. Values are essential to ethics developed at an early age and can be instrumental to building character.

Our school provides all the opportunities to the students to mould themselves well mentally and emotionally by giving them all the resources that prove to be useful in their all-round development. Along with all these values and morals our children are given the freedom of expression.

With this I wish everyone a safe and sound new year.
Happy 2019!

Jacinta Manuel
Principal, Pre Primary School
