My Journey

First of all, I thank God for all his blessings .Apart from God many people have contributed to my success. Sometimes in life we meet some people who change our view towards life. Whatever those person says seems like pleasant music to our ears. The teachers of ASVVS are such persons in my life.

They always told me to have a positive attitude towards life. The way they motivated and inspired us cannot be defined in words. My parents whom I consider the best parents in this world were of immense help. Their mental support and care never let me down. My teachers were really some of the best

teachers who always clarified all our doubts and answered our incessant queries.

A healthy environment both at home and school, time management, working on everyone's expectations, keeping perseverance in work and the success mantra conveyed to me by my teachers helped me achieve this feat. My success mantra : "Concentrate in the class while teacher is teaching, revise the topic as the teacher leaves the class and revise it once again at home."

Last but not the least the strongest factor in success is self-esteem : "Believing you can do it, believing you deserve it and believing you'll get it."

The Principal's Speaks ...

"The achievements of an organisation are the results of the combined efforts of each individual associated to it."

It gives me immense pleasure to address you through the Edition of ASVVS Newsletter 2020-21.

My heart is filled with pride to share the SSC Board 100% result has become a tradition now. A proud moment in the history of our school that 21 students scored above 90% and all students with minimum first class is surely an outcome of the unified efforts.

With the guidance of our esteemed management, our devoted staff and supportive parents we could fight with the pandemic situation without letting miss our students study. We pioneered in adopting the online teaching. Rather our students participated and excelled in different online competitions.

We at ASVVS tried to connect to the community through different webinars conducted under the able guidance of our Chairman Shri Subhash Parmar. We through various educational practises and different platforms are trying our best to expand our wings to conquer new horizons for our students. With this ambition we have started with the Indo Brazil Virtual Educational Exchange (IBVEE) project. Our pioneering Global Virtual project. Through this our students are going to get International exposure and experience of leadership skills.

I hope the year will be safe and healthy for all of us. And I wish that our country be liberated from this pandemic situation. It surely would be a true celebration of Independence Day.

Wishing you all a happy Independence Day!
